

University of Chicago
The Department of Human Genetics
2018 - 2019 Seminar Series

Wednesdays, 12:00 p.m. - KCBD Auditorium Room 1103

December 5, 2018	Paschalis Kratsios University of Chicago	Host: Marcelo Nobrega
<u>Title:</u> Gene regulatory mechanisms of motor neuron terminal differentiation: lessons from <i>C. elegans</i> and mice		
February 6, 2019	Priya Moorjani University of California, Berkeley	Host: Arjun Biddanda
<u>Title:</u> Molecular clocks of human evolution		
February 20, 2019	Richard Behringer MD Anderson Cancer Center	Host: Mirna Marinic
<u>Title:</u> Genetic regulation of vertebrate sex development		
March 6, 2019	Benjamin Voight University of Pennsylvania - Perlmans School of Medicine	Host: Carole Ober
<u>Title:</u> A nifty time for computation in human genomics		
March 20, 2019	Eimear Kenny Ichan School of Medicine at Mount Sinai	Host: Carole Ober
<u>Title:</u> Human history and health through the lens of genetics		
May 1, 2019	Jonathan Pritchard Stanford University	Host: Matthew Stephens
<u>Title:</u> The omnigenic architecture of human complex traits		
May 22, 2019	Hilary Finucane Broad Institute	Host: Xin He
<u>Title:</u> Gene prioritization using local and polygenic signals
